DETAILED ACTION***Allowable Subject Matter***

Claims 1-14 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a hydroprocessing method of at least two reaction stages comprising the following steps: passing a hydrocarbon feed into a first reaction stage at hydroprocessing conditions where it is contacted with a catalyst in a fixed bed and at least a portion of the feed is converted; combining the resultant effluent with product material from a second reaction stage and passing the combined stream to a separation zone; separating the stream into an unconverted liquid effluent and at least one converted stream comprising products having a boiling point below that of the feed; passing the unconverted liquid effluent to a second reaction stage, said stage comprising a plurality of reaction zones wherein each zone is maintained at hydrocracking conditions and separation occurs between each zone; contacting the feed in the first reaction zone of with a catalyst in a fixed bed; separating the effluent into an unconverted liquid effluent, and a hydrogen-rich converted stream; recycling the hydrogen-rich converted stream to combine with the initial effluent; passing the unconverted liquid effluent to a second reaction zone of the second stage, the zone being maintained at hydrocracking conditions; contacting the feed in the second reaction zone with a catalyst in a fixed bed; and fractionating the effluent to produce gas, naphtha, and one or more middle distillate product streams.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
